SEPTEMBER 2026 EDITION

*MBARC young ladies Maja Chesney **KO6DAV** and Judy Cloutier **KK6NWG** host the MBARC Summer Party 2026 at the Yucca Mesa Community Center.*

MBARC Summer Party 2026 Praise

*Maja Chesney **KO6DAV***

The **Morongo Basin Amateur Radio Club** held its Summer Party on Saturday, August 15, at the Yucca Mesa Community Center. In line with this, I would like to take this opportunity to thank the following people:

To the **MBARC** Board of Directors: Thank you for approving the Summer Party and for providing a \$200 budget for the event.

To Jim Stewart **KI6WTI** and Miya Ferrell: Thank you for coming early, opening the venue, and setting up the tables and chairs before the rest of us arrived. Thank you also for helping with the setup and cleanup after the party. I really appreciate you both.

To Rob Cloutier **WO4ROB**: Thank you for all the kind words you shared about Judy and me during the meeting. Thank you also for helping with the setup and cleanup after.....[COVER STORY, p.7](#)

ARRL awards MBarc Beacon 2nd Place

Aaron Chesney **KM6IAU**, MBarc Beacon Editor

The **American Radio Relay League (ARRL)** has awarded this newsletter 2nd place in the **2026 Year-of-the-Club Contests: Outstanding Club Newsletters, Small Clubs Category**.

From [the ARRL's article about the contest](#):

“[...] Clubs were invited to show how they use two important communications tools — their websites and newsletters — to engage members, strengthen their organizations, and promote amateur radio. The response was enthusiastic, with more than 80 entries submitted in each contest from clubs across the country.”

The article continues:

“The contests were designed not simply to identify the ‘best-looking’ website or newsletter, but to recognize radio clubs that are using these tools effectively to serve their members. [...] A good newsletter can keep members connected between meetings, share technical knowledge and operating opportunities, celebrate club accomplishments, and give members another reason to stay engaged.”

MBARC Regular Meeting Minutes – AUGUST 2026

Aaron Chesney **KM6IAU**, Secretary

The regular meeting took place at the Yucca Mesa Community Center on AUGUST 15, 2026. An attendance sheet was circulated during the meeting. By the very brief meeting's end, the attendance sheet listed 13 names, though it became apparent after the meeting that the sheet did not fully circulate to all attendees. The Secretary estimates that 4 in attendance did not sign the attendance sheet.

President Jim Stewart **KI6WTI** called the meeting to order at 14:01.

The President called for new faces to introduce themselves.

The President then called for round table introductions. Clockwise around the table, attendees introduced themselves with some combination of name, callsign, and location.

Secretary Aaron Chesney **KM6IAU** referred attendees to the JULY 2026 meeting minutes distributed before the meeting and read the minutes.

Treasurer Glenn Miller **N6GIW** was absent. No report was given.

Membership Chair Aaron **KM6IAU** referred to the printed membership report distributed before the meeting. Phone numbers are included in the attached roster; addresses are not, but available to members on request.

Maja Chesney **KO6DAV** gave a brief report on that status of the club's social media accounts.

Larry Mollica **AD6G** reporting for the Repeater Committee reported "no news", then adding that there was plan to service the repeater duplexer in the near future.

There was no outstanding old business.

The President called for new business. Aaron **KM6IAU** mentioned that a speaker still needed to be selected for the next meeting. Vice President Larry **AD6G** called for a volunteer to give next month's presentation. Aaron **KM6IAU** volunteered.

Rob Cloutier **WO4ROB**, as Social Media Committee Chair, spoke briefly about the club's Facebook group. Rob reminded attendees that the club's Facebook group is limited to club- and amateur radio-related posts only. Members who have posted off-topic have been asked to remove their posts.

The meeting was adjourned at 14:12. The **MBARC** Summer Party followed. ---

MBARC Membership Report

Aaron Chesney **KM6IAU**, Membership Chair

Overview

This is the membership report for the **Morongo Basin Amateur Radio Club** as of August 28, 2026. This report is accompanied by the current roster when distributed to members at club meetings. If you are a current member, cannot attend meetings, and require an up-to-date copy of the roster, you may send your request by [email](#).

License class and expiration data is pulled from the FCC database based on the callsign we have on record for members. An expired license is counted as 'unlicensed'.

Statistics

45 Distinct Memberships (Family memberships often include multiple members.)	100% of all members
60 Members Total	73% of all members
44 members with Regular membership class	98% of Regular members
43 of them have current membership	5% of Regular members
2 of them have expiring soon membership	2% of Regular members
1 of them has expired membership	3% of all members
2 members with Active Duty membership class	17% of all members
10 members with Lifetime membership class	7% of all members
4 members with Honorary membership class	45% of all members
27 members are part of a Family membership type	55% of all members
33 members have Individual membership type	85% of all members
51 members are currently licensed	27% of licensed members
14 licensed members are Technician class	43% of licensed members
22 licensed members are General class	2% of licensed members
1 licensed member is Advanced class	27% of licensed members
14 licensed members are Extra class	15% of all members
9 members are currently unlicensed	

Established Membership Policies

Family Membership

Family Membership is limited to the immediate family members of the primary member.

Honorary Membership

Honorary memberships are automatically Family memberships.

Members with 5 years of continuous membership upon turning 90 are eligible for Honorary Membership.

Lifetime Memberships

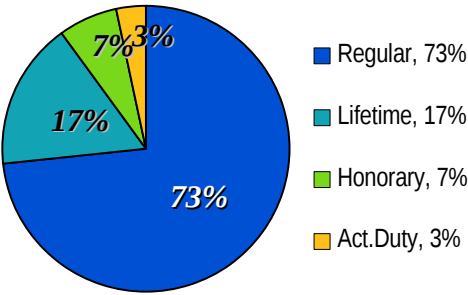

Lifetime memberships are automatically Family Memberships.

Expired Membership

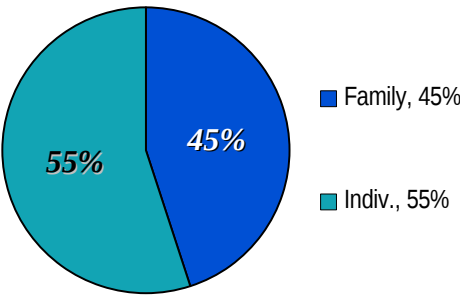

There is a two-month grace period for expired memberships. If a member renews their membership during the grace period, the membership is treated as continuous. *For the computation of the included **Statistics** and **Charts**, they are counted without exclusion.*

Plan C Orion Antler Spread, KØXP

Regular Section by Steve Harrison KØXP

Introduction

The 6-meter band showed considerable sporadic-E activity during the last week of July and the first week of August, culminating with an opening to Hawaii. I took advantage of sporadic-E openings as much as possible. On August 6, the band opened for an hour or two to Hawaii. I first heard **KH6ZM** CQ-ing while I was doing something else and just watching the radio spectrogram out of the corner of my eye. Noticing a series of small pips on the screen, I tuned in and discovered **KH6ZM** CQ-ing. I called him and surely he must have been as surprised as myself that the band was open. At the time, I was pointed toward the northeastern US, about 120 degrees off of his direct heading! After working him, I heard him work **WB8VLC** in Oregon. I don't know whom else he may have worked, as I moved down the band then started calling CQ toward Hawaii and Japan myself. I heard **KH6ZM** for at least another 45 minutes but never heard anybody else.

As mentioned last month, I am now maintaining a list of 6-meter beacon stations that I've heard; that list is presented below and is up to date as of August 26, 2026.

Activity Report

The QSO Log (beginning on the previous page, continued on this page to the right) describes what can be worked on HF CW, 160 meters through 6 meters, within one month or less, with very modest, low wire antennas from Wonder Valley. My activity is 100% CW. Right now, I mainly chase sporadic-E openings on 6 meters as well as DX on the HF bands, especially new countries.

A rare DXpedition that is taking place right now is to Franz Josef Land, an arctic Russian territorial possession similar to the Pacific islands that the United States protects. However, being so far north, conditions have been fairly poor, at least for myself, and the only bands I’ve been able to work them on have been 10 MHz and 20 meters.

That concludes this month’s report from the Plan C Orion Antler Spread; see you next month! If anybody would like help or advice on how to get involved with CW operation on the HF bands, just drop me a note at k0xp@k0xp.com and I’ll get right back to you.

73, Steve **KØXP** (/6) ---

COVER STORY, continued

... the party. We truly appreciate your support and kindness.

To everyone who brought additional food: Thank you so much! I won't mention names because I would hate to accidentally forget anyone. Please know that we truly appreciate your thoughtfulness, generosity, and willingness to contribute. Your kindness helped make the celebration even more special.

To everyone who participated in the games: Thank you all for playing and making the games so much fun! A special shout-out to our winners:

Paper Plane Challenge: Tim Ramsay **AD8KY**

Name-That-Tune: Barb Gustavson **K6BRB**, Miya Ferrell,
Rob Cloutier **WO4ROB**, Zach Root, Jim Stewart **KI6WTI**,
Judy Cloutier **KK6NWG**, Tim Ramsay **AD8KY**

Cornhole: Rob Cloutier **WO4ROB**, Tim Ramsay **AD8KY**, Zach Root,
Dean Caldwell **KE6VIA**

Jenga: Zach Root

To my loving and handsome husband, Aaron Chesney **KM6IAU**: Thank you for patiently editing the songs for the Name That Tune game, helping me with the designs used for the event, setting up the projector and sound system, photographing the event, and helping us with the setup and cleanup after the party. Thank you for being so supportive and for always being there for me. I truly appreciate everything you do.

And, of course, to my co-host, Judy Cloutier **KK6NWG**: Thank you for initiating the Summer Party, preparing and cooking the majority of the food, helping with the setup and cleanup afterward, and putting together and helping execute all of the games. Your time, effort, and enthusiasm made the party such a success, and it was truly appreciated! Thank you also for being so well-coordinated, organized, and dependable throughout the entire event. It was truly fun working with you, and it was an honor to be your co-host. Thank you for everything you do for the club.

Finally, to everyone who helped and attended the Summer Party: Thank you all for being there and for helping make the event such a wonderful and memorable celebration. We truly appreciate each and every one of you! ---

Cawfee Tawk Change

Aaron Chesney **KM6IAU**

Beginning September 1, the *Cawfee Tawk* net will run from Monday through Saturday at its normal time of 10:00am to 11:00am.

Hosts Judy Cloutier **KK6NWG** and Maja Chesney **KO6DAV** will alternate between these six days of the week; Monday, Wednesday, Friday; and Tuesday, Thursday, Saturday; respectively.

This change creates more balance between – and a bit of reprieve for – the already well-committed hosts.

Members and guests with a valid amateur radio license are always encouraged to participate in club nets, including *Cawfee Tawk*.

Members looking for an opportunity to improve their amateur radio skill in a low-pressure, informal environment might find an excellent opportunity to do so, while also being of service to the club, hosting *Cawfee Tawk* on Sunday.

If you're interested in volunteering as a net control station for *Cawfee Tawk*, contact Judy Cloutier **KK6NWG** at judycloutier@hotmail.com. ---

New Home at MBARC.net

Aaron Chesney **KM6IAU**

The radio club has a new home on the Internet at MBARC.net.

The **MBARC** Board of Directors, seeking to improve oversight, increase manageability, and ensure the perpetuity of the club's Internet assets, determined the path forward included the acquisition of the **MBARC.net** domain.

While the Board of Directors made its best effort to retain the **W6BA.net** domain during this endeavor, the domain's registered owner was unwilling to transfer the asset bearing the club's callsign to the club's possession.

Club officers realized that the resistance was actually a blessing in disguise, providing an excellent opportunity to pivot into a domain name that *truly* represented the club, not just a single element of its heritage.

Club leaders acted swiftly and in unison to begin adapting our public presence in-line with these changes. The most central of these adaptations are fully completed, with efforts continuing outward toward the club's perimeter.

More about this new direction in future newsletters. Stay tuned. ---

AWARD, continued

... in-person were presented plaques by representatives from the **ARRL**.

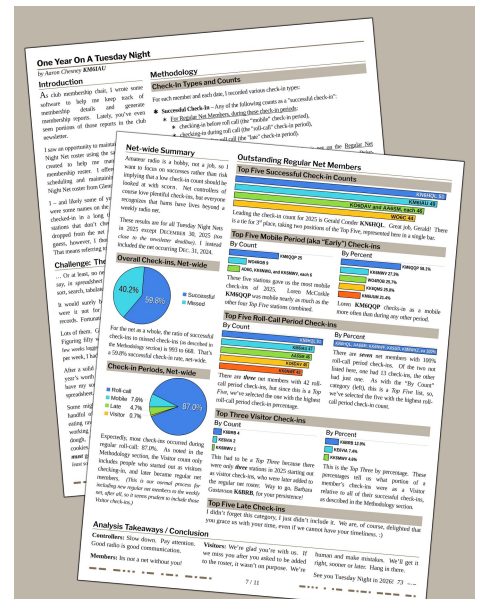

[FULL VIDEO](#) of the **ARRL** Forum in Huntsville. (**MBARC Beacon** at [14m 10s.](#))

In the initial notification email about the win, Becky Schoenfeld **W1BXY**, Director of Publications and Editorial at the **ARRL** writes:

"The judges felt the [MBARC Beacon] newsletter had a good mix of editor-written and member-written content, and that it used graphics particularly well, such as in the membership report and the JANUARY 2026 article that recaps a year of the club's Tuesday night net. MBARC Beacon was one of very few newsletters that provided a hyperlink to the continuing page when an article "jumped" to a later page – an excellent feature that more newsletters should employ. The judges also felt that the newsletter gave an especially good sense of who MBARC is, how connected the members are to each other, and how active the club is."

Looking at the newsletters of the other winners from each category (...well, the ones which weren't locked away behind a members-only area for whatever reason), I'm exceptionally proud of what we have here, and to be a part of this win.

My observation is that, as the **ARRL** intimated, the first-place winners didn't necessarily boast a better visual style, arrangement, or accessibility; but clearly had stronger representation in member-written content. I believe that this apparent preference for broader club participation is a worthy and justifiable distinction. That notwithstanding, our newsletter benefits immensely from our regular contributors. This is highly commendable; sharing and participation is the spirit of amateur radio. ---

*"One Year On A Tuesday Night", an article cited by **ARRL** judges.*

Member Birthdays – SEPTEMBER 2026

Regular Section by Maja Chesney **KO6DAV**

On behalf of the club, I want to extend our warmest birthday wishes to all our cherished members celebrating a birthday this month. May your special day bring joy, love, and peace. Stay happy and blessed.

If you'd like your birthday to be included for recognition here and on the club's [Facebook page](#), [get in touch](#).

MBARC Summer Party 2026 – Group Photo

Back: Jim Stewart **KI6WTI**, Tim Ramsay **AD8KY**, Zachary Root, Todd Root **KD6DIQ**, Keith Board **N6GKB**, Larry Mollica **AD6G**, Steve Harrison **KØXP**.

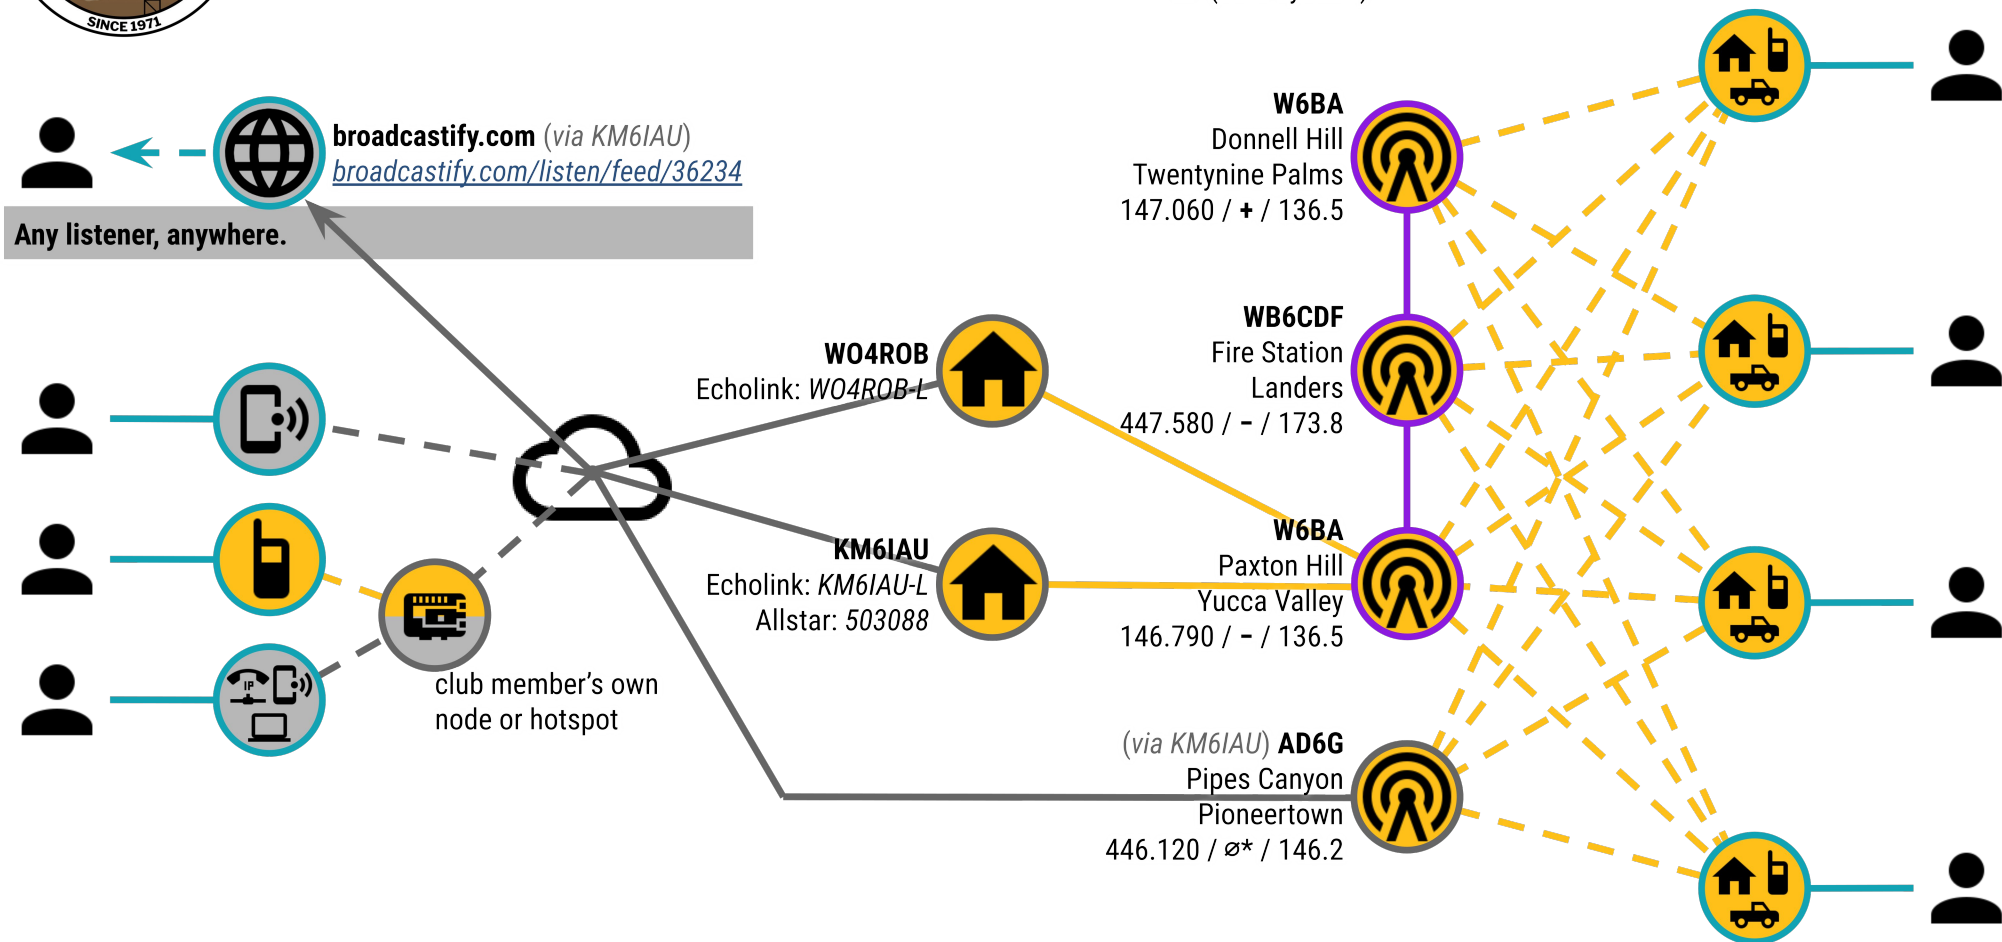

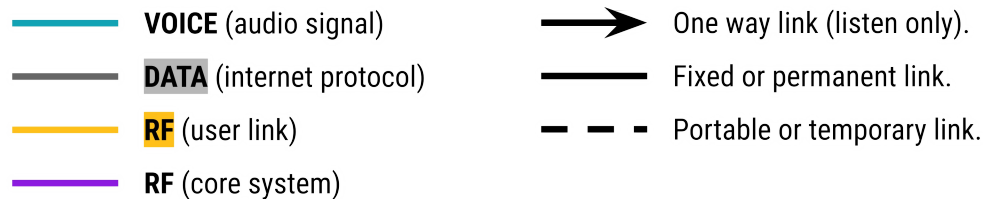

Front: Evelyn Ramsay, Mya Ramsay, Dean Caldwell **KE6VIA**, Barbara Gustavson **K6BRB**, Kathie Edwards, Rob Cloutier **WO4ROB**, Judy Cloutier **KK6NWG**,
Miya Ferrell, Aaron Chesney **KM6IAU**, Maja Chesney **KO6DAV**.

Thank you all for being there and for helping make the event such a wonderful and memorable celebration.

Morongo Basin Amateur Radio Club Linked Repeater System Overview

As of September 2026

Licensed amateurs with club membership, using **Allstar**** or **Echolink****.

Please use restrictive access, such as PL tone and low-gain antenna for RF links, or password for IP links. Do not link-in broad-access systems, such as other repeaters or reflectors, where such linking could transmit onto our club's system. Thank you.

Any licensed amateur using **RF**.

Please do not link-in broad-access systems, such as other repeaters or reflectors, where such linking could transmit onto our club's system. Thank you.

* This is a simplex node, not a repeater. There is no transmit frequency offset. You must wait for the carrier to drop before transmitting.

** Allstar access needs to be manually set up. Contact linkrequest@MBARC.net to submit your request.

** Echolink access may need to be manually set up. Contact linkrequest@MBARC.net to submit your request.
